WISE ARCHITECTURE has focused on extra-ordinary architecture made out of ordinary materiality and everyday life, after jointly established by Sook Hee Chun and Young Chul Jang in 2008. The two have also participated in many architectural cross over activities such as planning and executing Public Art projects. The two were recipients of the Korean Young Architects Award in 2011. Sook Hee Chun won the Seoul City Architectural Prize with “The Museum of War & Women Human Rights” in 2012. She received the Korean Design Award Grand Prize with “Dialogue in the Dark, Bucheon” in 2015.
